

Build. Scale. Regenerate.

Canadian industrial capacity meets advanced materials, biochar and AI-assisted process design.

01 / THE PLATFORM

Beyond Sustainable Tech (BST) is a federally incorporated Canadian company bringing technology, IP and manufacturing together to commercialize practical climate solutions.

REGENERATIVE HORTICULTURE

Advanced growing media, biochar and substrates designed for commercial growers.

[Explore horticulture](#)

MODULAR ACCESS + SMART STREETS

Reconfigurable access and street systems conceived for resilience, repair and reuse.

02 / COMMERCIAL OUTLOOK

Management forecast - horticulture product sales commercialized by BST

~CA\$2M

FY 2026-27

~CA\$6M

FY 2027-28

Forecasts are prospective, depend on customer contracting and final BST/TTL commercial terms, and are not historical BST revenue. BST's booked FY 2025-26 revenue figure is being confirmed separately.

03 / CAPITAL + EXECUTION

Founder financed to date

No completed external equity round, debt financing or grants received by BST.

First proposed external raise

CA\$6M for 20% post-financing equity; no prior round date.

Founder-led industrial businesses scaled sales from ~CA\$6M to ~CA\$30M in under three years (management-reported; separate from BST's results).

04 / FOUNDER + GROUP RECOGNITION

Corruven | Innovative Exporter

New Brunswick Export Awards, 2017
